

2026 Attorney Reporting Instructions and Form

Reporting Period: October 1st, 2025 – September 30th, 2026

Due Date: October 15th, 2026

Attorney Reporting Requirements Contained in Article 26.04, Code of Criminal Procedure & Section 107.0042, Texas Family Code

Why is this required?

Article 26.04(j) of the Code of Criminal Procedure requires all attorneys who accept appointments in adult criminal and juvenile delinquency cases to submit an annual statement of the percentage of their practice time that is dedicated to work on those appointed cases.

Attorneys are also required to report the percentage of their practice time devoted to court-appointed legal representation of children and/or parents in cases involving the Department of Family and Protective Services (DFPS), pursuant to Section 107.0042 of the Texas Family Code.

What is the Attorney Practice Time Report?

The reports reflect the total legal practice time spent in each of these areas, reported by the county or counties in which appointments were received during the previous fiscal year. Attorneys are required to report these percentages annually by October 15th for the previous fiscal year. The fiscal year timeframe is from October 1st to September 30th. Please be aware that some counties take action for attorneys who do not report appointed case practice time, including suspending or removing eligibility to receive appointments for criminal, juvenile, and/or family protection representation cases.

Where do I submit my attorney report?

How are the categories defined?

For **appointed adult criminal defense**, this percentage should include any time spent on appointed adult criminal defense, including pretrial, trial, and appeals. This should not include any time spent on any retained legal work, non-criminal work, or federal case work.

For **appointed juvenile delinquency defense**, this percentage should include any time spent on appointed juvenile defense, including pretrial, trial, and appeals. This should not include any time spent on any retained legal work, non-delinquency work, or federal case work.

For **appointed family protection representation**, this percentage should include court-appointed legal representation of children and/or parents/adults in cases involving the Department of Family and Protective Services (DFPS).

How do I determine my practice time?

Attorneys may calculate their practice time by time records, case counts, a combination of time records and case counts, or some other method. If you select Other, an explanation of the method used is required in the Other Determination Reason Box.
